

Burny's Fire Facts

1. 16 Alaskans lost their lives in fires during 2013.
2. All but 3 of the fire fatalities occurred in residential structures.
3. 6 of the fatalities did not have working smoke alarms.
4. Drug and/or Alcohol use was a contributing factor in 10 of the fires.

Safety Tips

- ◆ Install and test smoke alarms regularly.
- ◆ Have an escape plan and practice it regularly.
- ◆ Refrain from cooking, smoking or handling fire while under the influence of drugs or alcohol.
- ◆ Practice fire safety every day and consider installing a residential fire suppression sprinkler system in your home.
